**English**

## ABOUT ME

I'm a 19-year-old student named John Carlo Pornia, and I'm passionate about learning and driven by curiosity. As I go through my academic path, I always look for ways to contribute and have an influence since I thrive on teamwork and innovation. I have a strong interest in technology, and I'm eager to learn new things and look into creative ways to solve problems in the real world. Every project I work on benefits from my excitement and new viewpoint, and I'm ready to make connections and advance both personally and professionally.

## EXPERIENCE

### At 4Keeps, Elec. on 2023

#### Work Immersion

During my work immersion at 4Keeps Electronics, one of the requirements during my SHS, I assisted customers with inquiries and supported home repairs for electronic devices. I learned to troubleshoot issues and gained hands-on experience in handling equipment. This opportunity improved my technical skills and communication abilities.

### Web Development on 2024

I recently launched my first web portfolio, showcasing my journey and skills in web development. This project highlights my passion for creating engaging websites and my proficiency in HTML, CSS, and JavaScript. It serves as a platform to demonstrate my creativity and technical abilities while allowing me to share my projects with the world.
